1-Bedroom Residences

Conceived with superior craftsmanship and meticulous spatial planning, these 1-bedroom homes tuck the primary suite away for total acoustic isolation and open into sunlit living areas framed by floor-to-ceiling glass and city views. An artisanal kitchen with sculpted stone worktops and bespoke cabinetry anchors each home, with a dedicated study in selected units.

2-Bedroom Residence

A thoughtfully designed urban sanctuary balancing open-concept living with uncompromising privacy. Two en-suite bedrooms sit at opposite ends of the home, while a central living area flows into a semi-enclosed gourmet kitchen with custom millwork, abundant storage and durable stone prep surfaces. Premium tile flooring and expansive balcony doors complete the home.

3-Bedroom + DSQ Residence

Designed for grand-scale living, this residence clusters three en-suite bedrooms in a secluded wing for maximum quiet. The sprawling main salon opens onto a grand private balcony with sweeping skyline views, while a fully enclosed, chef-style kitchen offers stone surfaces, extensive custom storage and a separate utility section, all behind acoustic-insulated glazing.
